

Griffin Neighborhood Emergency Preparedness Survey

Is your household prepared in the event of an emergency which would disrupt power, water and transportation? Check the GNA website (www.GriffinNeighbors.org) for emergency preparedness information. The GNA in cooperation with the Griffin Fire Station is organizing small neighborhood clusters which would work together in the event of an emergency/natural disaster. This survey is intended to help develop and support these neighborhood clusters.

Please complete this survey and urge you neighbors to do the same.*
